# *About* **satva sutra**

**Satva Sutra" is a resort wear collection that harmonizes spiritual symbolism with contemporary fashion. Rooted in the essence of the seven chakras, each piece in the collection embodies the energy, colour, and divine forces governing these spiritual centers. The prints are intricately designed, drawing inspiration from the ruling gods and goddesses of each chakra. Their sacred vahanas (vehicles), often depicted as animals with deep mythological significance, are seamlessly printed on the fabric. This fusion of tradition and modernity results in a collection that is both aesthetically captivating and spiritually resonant. "Satva Sutra" is more than just resort wear—it is an artistic ode to divine energies, offering a unique blend of heritage, symbolism, and effortless elegance.**
